Claim Rejections - 35 USC § 112

1. Claims 1- are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1 and in claim 5 the phrases "...the perimeter outline of the treaded bottom" is vague and indefinite because it defines the removable outsole in reference to an undefined element which has not been positively recited as part of the combination.

Claims 7 and 11 are vague and indefinite because it is not clear what structural limitations applicant intends to encompass with such language. The claims appear to recite merely the intended use of the device.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 4-8, 10-13, and 16 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Adair (3643352).

Adair shows a removable outsole comprising an elastic band (11), a sole with a plurality of cleats (21) which are removably attached to a rigid sole plate (formed by element 17 and either 27 or 28), a toe cap (12), and the removable outsole is recited as being placed over a regular shoe (column 2 lines 45-50) , and the inherent method of using such.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 2, 3, 9, 14, and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Adair (3643352) in view of Smith (5836090).

Adair shows an outersole and combination and inherent method of use substantially as claimed except for an anchor strap/support band over the top of the shoe. Smith teaches providing an anchor strap/support band (16 and 16') on a removable outersole. It would have been obvious to provide an anchor strap/support band as taught by Smith in the outersole of Adair to provide a more secure fit and to prevent the outersole from slipping off of the shoe.

1.
